

Norwegian Emergency Services

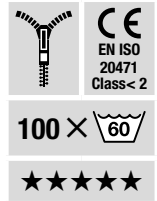

Model 228

These reflective short-sleeved vests are for the Emergency Services as described by the Norwegian Ministry of Justice and Public Security. The vests are worn to protect users at accident scenes and more importantly, to provide the necessary identification of service and functions. Specifications system of defined models, printed reflective materials and defined texts by Justis og beredskapsdespartementet Rundskriv G-09/2005. **Made in high quality materials.**

Features: Two big pockets with extra tough velcro closures, holders on shoulders and loop for hanging.

Sizes: S - XXL

Fabric: 100% polyester, 160 g/m²
