

Reflectil is the Chosen Supplier for the Swedish Police

For many years, Reflectil has been the chosen supplier to the Swedish Police. We know the needs in the tough environment where these vests are being used. We know the highest of demands from the Police and have been developing new models and accessories together with the Police for many years.

Special Design

New shorter model design for maximal flexibility making it easier for the Police to use the vest together with their belt with tools and weapon.

Distinct Branding

Tough Fabric

The demands from the Police are high. Reflectil source and develop the materials needed to fulfil the requirements.

Norwegian Red Cross

This vest is an example of a customer specific vest developed to fit a number of specific demands. It is certified EN ISO 20471 Class 2. It may inspire other professional organizations when developing products that fit their exact needs.

Easy Identifying

To show the rank and grade of the Red Cross member, flaps for distinguishing marks are located on both shoulders and logos of rank are placed on the chest.

24 hour branding

The vest is branded with a reflective multi colour logo for recognition during daytime conditions as well as when illuminated at night.

User Friendly Pockets

The pockets are tailored to suit the Norwegian Red Cross' specific needs. Flaps and zippers are equipped with devices and pullers to make the pockets easy to open and close when using gloves.

Durable

The vest is made of heavy duty high visibility fabric to be robust and last for a long time.
